# Bloc B - Héritage

L'ORACLE

1.UML

Nous avons décidés de rajouter deux classes pour les tribus:

     -une classe pour la tribu des Moonwatchers pour qui l'oracle s'exprime à travers la Lune. Elle peut recevoir un conseil ou une punition

     -une autre classe pour la tribu des WhiteHands qui échangent avec l'Oracle via des cérémonies avec ou sans sacrifices

Nous avons également inséré une quatrième classe pour les services (nommée Punisher) avec son interface approprié pour permettre l'accès aux tribus. Celle-ci, comme son nom l'indique, a pour but de punir les tribus.
